PROFESSIONAL SUMMARY

Client-focused professional with 6+ years of experience across client relationship management, project coordination, customer service and professional consulting. Experienced in managing multiple concurrent client engagements, coordinating stakeholders, tracking project timelines and deliverables, collecting and reviewing information, maintaining accurate documentation and ensuring client requirements progress through to completion.

Experienced serving as a client-facing point of contact and coordinating communication between clients, regulators, multidisciplinary teams and other stakeholders. Strong ability to clarify requirements, follow up on outstanding information, identify potential bottlenecks, resolve issues and maintain momentum across complex projects.

Highly organised, detail-oriented and accountable, with a strong sense of ownership and the ability to work independently in remote environments. Comfortable handling confidential client and financial information, learning new systems and managing competing priorities with minimal oversight.

PROFESSIONAL EXPERIENCE

AFZELIA ENVIRONMENTAL CONSULTANTS (PTY) LTD — Durban, South Africa

Environmental Consultant | 2022–Present

- Manage multiple concurrent client engagements, coordinating requirements, timelines, deliverables and stakeholder communication from project initiation through completion.
- Serve as a primary client-facing point of contact, managing correspondence, clarifying requirements, providing project updates and coordinating responses between clients, regulators and multidisciplinary teams.
- Build and maintain professional client relationships through responsive communication, proactive follow-up, expectation management and consistent resolution of outstanding matters.
- Coordinate the collection, consolidation and review of information and supporting documentation required to progress client engagements.
- Monitor project timelines, milestones and deliverables to ensure commitments are completed accurately and within required deadlines.
- Review project documentation for completeness, accuracy and consistency before submission or completion.
- Prepare client-facing reports, proposals, quotations and technical documentation, translating complex information into clear and professional communication.
- Coordinate meetings, project logistics and stakeholder activities across multiple concurrent assignments.
- Identify potential issues, delays and bottlenecks and coordinate appropriate responses to maintain project momentum.
- Follow up with clients and stakeholders regarding outstanding information, decisions, approvals and deliverables.
- Communicate proactively when project requirements, timelines or deliverables require clarification or adjustment.
- Maintain accurate client and project records while handling confidential information professionally.
- Coordinate with internal and external stakeholders to ensure responsibilities, actions and deadlines remain clear.
- Work independently while managing competing priorities, deadlines and client requirements with minimal oversight.
- Identified opportunities to improve administrative workflows and introduced AI productivity tools to streamline repetitive tasks and improve efficiency.
